Clonan Promoted to Vice President

Syracuse, New York, 5/19/2008 – C&S Companies promoted **Richard Clonan**, to vice president and Chief Operating Officer of the Fiddlehead™ group. Clonan was previously general manager. Clonan will manage the Fiddlehead™ group and be responsible for day to day operations, including sales and marketing, distribution strategy, vendor procurement, and all personnel. “Rick’s tremendous energy, business ability, and entrepreneurial savvy will be instrumental in making this business successful”, states William Brod, President of C&S Operations, Inc., the firm within C&S Companies responsible for the Fiddlehead™ product.

Fiddlehead™ is a proprietary computer-sharing technology that works with any modern desktop computer, leveraging excess computing power to run up to five individual workstations without any loss in performance. Fiddlehead supplies a software solution to a hardware problem by allowing deployment of significantly more desktop workstations for any given budget. In addition, the COSMOS™ technology within Fiddlehead provides a bridge from a Microsoft Windows® operating system to the open source software world, allowing the use of freeware available from a Linux® operating environment.

Visit www.myfiddlehead.com for more information on this exciting new product offer from C&S Companies.
